All orders are inspected and a quote is provided for your approval before production. A 50% deposit is required upon approval. We will give you an estimated delivery window, however once work begins, depending on the age and condition of your media, we sometimes find that they may need more TLC than anticipated. We will notify you if more time is needed, or if this affects labor costs, we will contact you for approval. If the order is cancelled due to any additional cost, the deposit is refunded less a \$150 labor **fee** for the inspection and evaluation process.

We keep your media on our hard drives for **30 days** following delivery. To protect against data loss, we strongly recommend that you make a **back-up** copy of your transferred media onto another drive right away, or let us do it for you by ordering extra flash drive copies and safely storing them away.

We, and our trusted Pro Lab, take great care in the handling of all materials and treat them as if they were our own, however all media has the potential to deteriorate over time.

By presenting your media for digitization, **you agree** that we, and our trusted Pro Lab, are not liable for any data loss or media damage, or for any damage to your media that may occur due to factors beyond our control, including, but not limited to, age-related deterioration, damage or loss caused by machine malfunction or during tracked shipping.
